

I am a supporter of K-LOVE and would not want the station in jeopardy of losing it's signal to an LPFM. K-LOVE is the only station my family listens to and is a daily part of our lives. The station provides us with postiive music that no other station in my listenting area could replace. It has been a crucial part of my spiritual walk and I share this with others in my area. It is in the public's best interest to have an alternative to the negative and culturally confusing messages that are heard on other stations. This station reaches people in the comfort of their homes and car when there is no other support available. This station saves lives.
